

## Greenfield Village Map and Articles

For students with **internet access**, we have made a great Google Slides online Greenfield Village Tour. We want you to have an experience with the Village while you're at home. It is a wonderful place! Each teacher will let you know how to access the Google Slides Virtual Tour.

We know, however, that **not everyone has internet access** right now. So, we still wanted you to have the chance to learn about some of the famous people who are represented at the Village! There are 3 interesting articles with questions in the Week 5 and 6 packet for you to read. These articles are about Thomas Edison, The Wright Brothers and George Washington Carver. We've also included a map of the Village for you to explore.

Enjoy Greenfield Village whichever way fits your learning opportunities!  
We are happy you get to experience a little taste of what the Village has to offer.
