

## Summer Writing

*Following these directions, you'll find some interesting writing assignments to keep you sharp in June!*

Cell Phone: Write your response to the prompt. Be sure to give good reasons to support your opinion!

Facebook Opinion: Read the statement, and take some time to think about your opinion. Go on to the graphic organizer to fill it out **before** you write your response on the lines.

Graphic Organizer: Use this organizer to really organize your opinions and reasoning about Facebook Accounts. When you've filled it all out, use it as a guide as you write your persuasive essay's paragraphs and sentences on the Facebook Opinion paper.

Editing Wheel: Cut out the editing wheel and put it together. Use this wheel to go back and proofread your persuasive essay about Facebook.

-----

Story Cards: Cut out the cards. Put them in piles by "type." Draw a card from each pile, and write a creative story! You can do this as many times as you'd like! It would even be fun to get your family involved. You could all draw cards, write stories, and then share them with each other!
